

343/Kit 3 Legionnaires Temperature Kit

Description: The TPI 343 Legionnaires Temperature Kit 3 is a comprehensive solution designed for those who need precise temperature monitoring in water systems. This kit is particularly useful for identifying conditions that may encourage the growth of legionella bacteria, a known cause of Legionnaires' disease. Central to this kit is the TPI 343 Dual Input Differential Thermometer, capable of displaying readings from two probes simultaneously and calculating the differential temperature between them. The thermometer's broad measurement range of -50°C to 1350°C

External ID: 2855636

Category: Instrumentation

Manufacturer: TPI Europe Ltd.

Model: 343/Kit 3 Legionnaires Temperature Kit

Serial No: 27206730042

Part No: —

Year: —

Weight [kg]: 2

Dimension (L x B x H) [m]: 0,30X0,25X0,08

Condition: Used

Tag No: —
