

Battery Load Tester - Torkel

Manufacturer: Torkel

Model: 840

Description: The Megger Torkel 840 DC Battery Load Tester is made for battery systems in the range from 12 V to 250 V, often encountered in switchgear and other equipment alike. Discharging can take up to 110 A, and two or more 840 units or extra load units can be linked together if there is a need for a higher current. Tests can be done at constant current, power and resistance or in accordance with pre-selected load profile.

Serial No: 6501507

Condition: Good

Stock: 1

External ID: 3574310

Internal ID: 12274

Category: Instrumentation

Subcategory: Electrical Measuring Instruments

Dimension (L x B x H) [m]: 0.80X0.30X0.50

Weight [kg]: 30
