Brazed plate heat exchanger - Alfa Laval

Manufacturer: Alfa Laval
Model: CBH26-30H
Description: Manufacturer: Alfa Laval, manufactured in Ronneby, Sweden. Model/Type: The specific model is a CBH26-30H. Pressure and Temperature: The unit is designed to handle specific operating pressures (measured in bar) and temperature ranges (measured in °C), as shown in the table on the plate. For this unit, the temperature range (TS) is -160 to 225°C. Applications: These heat exchangers are often used for HVAC (heating, ventilation, and air conditioning), refrigeration systems, oil cooling, and industrial processes. Certification: The plate bears the CE mark (CE-0409), indicating compliance with European safety standards for pressure equipment.
Serial No: 41331842
Stock: 1

External ID: 3675129
Internal ID: 12306
Category: Heat Exchanger
Subcategory: Plate Heat Exchanger
Dimension (L x B x H) [m]: 0.20x0.40x0.15
Weight [kg]: 10
