Buck HC-404 Total Hydrocarbon Analyzer - Buck Scientific

Manufacturer: Buck Scientific
Model: Buck HC-404
Description: Application: Rapid and accurate analysis of total petroleum hydrocarbons in water and soil. Technology: Uses a fixed wavelength of 2930 cm^{-1} (3.42µ) for infrared spectroscopy. Display: Shows measurements in concentration, absorbance, and %T (transmittance) via a digital display. User-friendliness: Designed for quick analysis without the need for time-consuming scans.
Condition: Used
Stock: 1

External ID: 3797378
Internal ID: 12458
Category: Electrical Equipment
Subcategory: Electrical Equipment, Other
Dimension (L x B x H) [m]: 0,35x0,28x0,25
Weight [kg]: 3.5kg
