

Druck Calibrator - Druck

Manufacturer: Druck

Description: The Druck PV411A-HP (often referred to as a "4-in-1" hand pump) is a robust calibration tool used for testing and verifying pressure instruments. It eliminates the need for multiple different pumps by combining four functions into a single device. Technical Specifications & Pressure Ranges
Hydraulic pressure: Generates from 0 to 700 bar (0 to 10,000 psi).
Pneumatic pressure: Generates from 0 to 40 bar (some versions up to 60 bar / 900 psi).
Vacuum: Capable of pulling down to -0.95 bar (-28.5 inHg).
Low pressure: Fine adjustment and sensitive control for measurements close to atmospheric pressure.

Stock: 1

External ID: 3975450

Internal ID: 12589

Category: Hydraulic Equipment

Weight [kg]: 5
