Ex Transformer 400VA - Pownet

Manufacturer: Pownet
Description: Technical Specifications Based on the product code TRA11024/400-4EX and official datasheets, here are the detailed specifications for this unit: Voltage Configuration: This specific model is designed for a 110VAC input and provides a 24VAC output. Power Rating: 400VA (Volt-Amps), which defines the maximum electrical load it can safely handle. Output Outlets: Typically equipped with 4 socket outlets for connecting multiple devices, such as hazardous area worklights. Protection Rating: IP66, making it completely dust-tight and protected against powerful water jets. Operating Temperature: Designed to function in extreme conditions, with an operating range from -40°C to +55°C (though some variants are rated for -20°C to +40°C). Weight & Build: It weighs approximately 17–18.3 kg and features a rugged composite enclosure mounted on shock absorbers within a marine-grade steel frame for maximum durability.
