

Fire Alarm Equipment - Ansul

Model: Autopulse 542R

Description: The AUTOPULSE 542 is a six-zone Releasing Control Panel for single and dual hazard applications. The AUTOPULSE 542 provides reliable fire detection, signaling and protection for commercial, industrial and institutional buildings. The AUTOPULSE 542 is compatible with System Sensor's i3 detectors which are conventional smoke detectors that can transmit a maintenance trouble signal to the panel indicating the need for cleaning and a supervisory 'freeze' signal when the ambient temperature falls below the detector rating of approximately 45 °F (7 °C). In addition, the control panel is compatible with conventional input devices such as two-wire smoke detectors, four-wire smoke detectors, pull stations, waterflow devices, tamper switches and other normally-open contact devices. Refer to Device Compatibility Document for a complete listing of compatible devices.

Condition: Good

Stock: 1

External ID: 3704333

Internal ID: 12317

Category: Instrumentation

Subcategory: Fire and Gas Detection

Dimension (L x B x H) [m]: 0.49X0.43X0.14

Weight [kg]: 10
