

Medium Pressure Blower - Leister Silence

Manufacturer: Leister Silence

Description: This is an industrial Leister Silence medium pressure blower. The machine is designed to be highly silent, with a noise emission level of around 61 dB(A). It is suitable for industrial processes, such as supplying air to multiple hot air heaters simultaneously, and can handle air inlet temperatures up to 200 °C / 392 °F. Typical technical specifications for this model include a power consumption of 250W and a voltage of 1x 230V
