

Plug/Stem Assembly - Fisher Controls (Emerson)

Manufacturer: Fisher Controls (Emerson)

Model: Fisher ED/ET-serien

Description: A plug/stem assembly is the internal moving component of a control valve that regulates the flow of fluids by moving the plug in relation to the valve seat. These assemblies are designed for high-pressure industrial environments, such as offshore oil and gas production, where reliable shut-off and precise flow control are essential.

Condition: Good

Stock: 4

External ID: 3706873

Internal ID: 12321

Category: Valves

Subcategory: Valves, Other

Dimension (L x B x H) [m]: 0,21x0,21x0,67

Weight [kg]: 16
