

Pressure Transmitter - Emerson

Manufacturer: Emerson

Model: Rosemount 4600

Description: This specific type of compact in-line transmitter is primarily used in the oil and gas industry, specifically for panel-mount applications where space is limited. It is engineered to measure high pressures under harsh conditions and outputs a standard 4-20 mA signal.

Condition: Good

Stock: 1

External ID: 4073917

Internal ID: 12692

Category: Instrumentation

Subcategory: Transmitter

Dimension (L x B x H) [m]: 0,05x0,05x0,17

Weight [kg]: 1
