

Process/Rotating machinery sensor - Ronan

Manufacturer: Ronan

Model: X87-RR-20-CE

Description: The Ronan Series X87 process monitor system is capable of monitoring temperature, vibration and engineering unit parameters collected from processes and rotating machinery.

Serial No: E021024-002

Condition: Good

Stock: 1

External ID: 3578181

Internal ID: 12278

Category: Electrical Equipment

Subcategory: Electrical Equipment, Other

Dimension (L x B x H) [m]: 0.49x0.30x0.14

Weight [kg]: 9
