

## Regulator Valve - Welker

**Manufacturer:** Welker

**Model:** IR01TOXCVS--90

**Description:** The Welker I-Series Instrument Regulators maintain downstream pressure control in analytical, process, sampling, or injection systems to protect sensitive equipment from costly damage. These instrument regulators are spring-loaded pressure-reducing valves designed to reduce a higher pressure filtered pneumatic supply to a lower outlet pressure safe for downstream instrumentation.

**Condition:** New

**Stock:** 2

---

**External ID:** 3711692

**Internal ID:** 12332

**Category:** Valves

**Subcategory:** Solenoid Valve

**Dimension (L x B x H) [m]:** 0.12X0.08X0.08

**Weight [kg]:** 1
