Seta Multiflash - Stanhope-Seta

Manufacturer: Stanhope-Seta
Model: 34000-0 and 34100-2
Description: Stanhope-Seta 34000-0 (Universal Base Unit) This is the core control unit of the system. It contains the electronics, user interface, and heating plate. It is designed to "recognize" which test module is attached and automatically configure the correct software and calibration settings for that specific test. Stanhope-Seta 34100-2 (Pensky-Martens Closed Cup Module) This is the specific testing hardware for the Pensky-Martens method. It sits on top of the base unit to perform automated flash point tests on fuels, lubricants, and bitumens.
Condition: Used
Stock: 1

External ID: 3807603
Internal ID: 12477
Category: Instrumentation
Subcategory: Instrumentation, Other
Dimension (L x B x H) [m]: 0,46x0,32x0,32
Weight [kg]: 18,5
