

Thermocouple Amplifier - Kongsberg

Manufacturer: Kongsberg

Model: GN 100E

Description: Thermocouple Amplifier converts (amplifies) the low voltage output from a thermocouple (approximately 40 $\mu\text{V}/^\circ\text{C}$ when using a 'K' element) to a standard 4 to 20 mA signal using a 2-wire connection

Part No: 001-099658

Year: 2021

Condition: New

Stock: 2

External ID: 3153557

Internal ID: 12030

Category: Electrical Equipment

Subcategory: Electrical Equipment, Other
Dimension (L x B x H) [m]: 0,15x0,08x0,06
Weight [kg]: 1
